purpose of the bill itself has actually already been explained. It's basically simply to allow historical vehicles, for which there is just one plate, to allow them to use that one plate. And I have some good folks in my district who spend a lot of time fixing up old cars and I'm very glad they do and any little thing we can do to encourage them in that endeavor and to make their cars more authentic is good, from my point of view. Thank you.

SENATOR HALL: Senator Landis, on the committee amendments.

SENATOR LANDIS: Thank you, Senator Hall, members of the Legislature, this is the annual clean-up bill by the Department of Banking. They have gone through their own statutes, identified places where they need clearer language or have grammatical errors, in some cases, or they want to harmonize provisions, and there are a variety of changes in the bill. committee amendments, however, address only one of the list that's in the bill. One of the things the bill does collapse three funds that the department now administers into one, and it combines several of the funds into the Financial Institution Assessment Cash Fund. What the committee amendment does is to make some technical changes to make sure that the Loan Act Fund collapses into the Financial Institution Assessment Cash Fund, not the other way around. technical amendment, I would move at this time. adopted, I will explain the terms of the bill.
